

Product Benefits

- * Ability to slopes over 10% with motorized wall mount.
- * EASY TO USE: ergonomic remote control, motorized support, fast access to the head rotation
- * STRENGTH: 4 bumpers for protection, head protection in a rotating cage aluminum, easy handling, d
- * Auto leveling in horizontal and vertical mode
- * Setting the speed of rotation of the point from 0 to 600 tours/min/6 speeds available
- * Scanning Mode for an even brighter beam over an angle of 2 to 36
- Squareness * 90 °
- * Fashion motorized wall mount for moving the laser distance
- * System hangs Rapid angles false ceiling or walls (support manual and motorized)
- * TILT function to stop the laser and trigger an audible and visual response to any involuntary displacem
- * Manual mode: implementation of slopes along the X and Y axes to $\pm 10\%$.
- * Semi-automatic mode: implementation of slopes along the axis Y while maintaining a self-leveling on t

Specifications

Power Battery Pack	: NiCd, Range block batteries: 160 hours, Battery Rechargeable: 40 pm
Self Leveling Angle	+ / - 5.7 °
Dimensions	235 x 210 x 210 mm
Thread	5 / 8 "
Function	Rotary
IP	64
Weight	2.2 kg
Scope	Scope of the radius with cell reception: 150 m
Accuracy at	100 m: + / - 10 mm
